#### 1. Qualitative Information on Consolidated Results

### (1) Results of Operations

### Overview of the consolidated business performance for the 9 months ended September 30, 2017

The SIOS Group has long been at the forefront of the fast-evolving IT industry and has been implementing its strategic initiatives, which are outlined in the Group's medium-term business strategy, by focusing its efforts on continuing to invest in research and development, expanding into new business segments including Fintech<sup>1</sup>, and becoming more competitive in its core businesses.

In the nine months ended September 30, 2017, the Group redoubled its sales efforts for LifeKeepr<sup>2</sup> and software applications for multifunction printers (MFPs)<sup>3</sup>. We also expanded service and product offerings, including the rolling out of SIOS Coati, which provides automatic disaster recovery of systems in public cloud environments.

As the Group celebrates its 20th anniversary this year, we have a new corporate mission: "Making the impossible possible for the people of the world." Under the holding-company structure, which was implemented October 1, 2017, we continue to enhance our organizational effectiveness and to invest in new technologies and our talent of people.

With the implementation of these initiatives and efforts, the Group's consolidated business results by segment for the nine months ended September 30, 2017, are as follows:

### **Open System Infrastructure Business Segment**

The Group achieved a substantial jump in sales of LifeKeeper in the Americas and a steady increase in its sales in Japan and the Asia-Oceania region. Buoyed by stepped-up sales and marketing efforts, Red Hat Enterprise Linux<sup>4</sup> and other software products sourced from Red Hat, Inc. enjoyed robust sales, and OSS-related products also achieved steady sales growth.

As a result, net sales in this segment amounted to 5,151 million yen, up 8.6% from the same period a year earlier. The segment income decreased by 8.1% year on year to 134 million yen. This was partly because the gross profit margin from product sales declined and partly because we increased spending on advertising.

#### **Application Business Segment**

The Group achieved a steady increase in sales of software applications for MFPs as well as in revenues from providing support for system development and implementation. On the other hand, sales of software applications for regional banks fell sharply from the previous year. This was partly because their sales for this fiscal year are projected to shift toward the second half of the year, while most of their sales had been posted in the first half of the year previously, and partly because some sales that were expected to be made in the third quarter were deferred until the fourth quarter.

As a result, net sales in this segment amounted to 4,131 million yen, down 6.9% from the same period a year earlier, with a segment income of 49 million yen, down 82.2% year on year.

The Group's combined net sales for these two segments were up 1.1% year on year to 9,283 million yen in this period. A sharp decline in operating income in the application business segment was primarily responsible for driving the Group's consolidated operating income down by 56.9% year on year to 184 million yen. With smaller non-operating expenses recorded in this period compared with the same period the previous year, during which an equity in losses of affiliates had been recorded, the Group posted an ordinary income of 194 million yen, down 46.9% year on year. The Group's profit attributable to owners of the parent company amounted to 79 million yen, down 50.7% year on year. This was primarily because, although expenses related to a retrospective adjustment of 139 million yen posted as extraordinary losses in the previous year were not a factor in this period, we paid 64 million yen more in current income taxes than a year earlier. The Group's key management metrics EBITDA, which is the sum of operating income, depreciation and amortization, and amortization of goodwill, stood at 315 million yen, down 43.6% year on year.

### 1. Fintech

An emerging technology for facilitating innovations in the financial sector.

### 2. LifeKeeper

A failover software product that automatically switches a failed primary server to a backup server.

### 3. Software applications for multifunction printers

A multifunction printer (MFP) is a piece of office equipment that incorporates print, scan, copy, and fax capabilities into one unit. SIOS develops, markets, and updates Quick Scan and Speedoc, document management software applications running on an MFP.

#### 4. Red Hat Enterprise Linux

Linux OS developed by Red Hat, Inc., a provider of open-source solutions.

### (2) Financial Position

Total assets were 5,654 million yen as of September 30, 2017, up 7.6% from the end of the previous fiscal year; this was primarily due to an increase of 333 million yen in cash and cash deposits. Total liabilities were up 9.2% to 3,941 million yen, primarily due to an increase of 186 million yen in advances received. Total net assets were up 4.0% to 1,713 million yen, reflecting a profit of 79 million yen attributable to owners of parent posted in this period.

### (3) Forward-looking Statements Including Consolidated Business Forecasts

The Group's consolidated business forecasts for the fiscal year ending December 31, 2017, which were announced on February 2, 2017, stand for the remainder of the year, considering that shortfalls from the forecasts in operating income and other profit items for the nine months ended September 30, 2017 were attributed primarily to the deferment of some sales in the application business segment from the third quarter to the fourth quarter, as mentioned earlier in this report.

However, depending on how orders turn out in the fourth quarter, there is a risk that some sales may shift from the fourth quarter of this fiscal year to the next fiscal year. If this should eventuate, the Group's consolidated business results for the fiscal year ending December 31, 2017 might fall short of the forecasts announced on February 2, 2017.

### 2. Matters Concerning Summary Information (Notes)

- (1) Material changes in subsidiaries during the three months ended September 30, 2017 Not applicable
- (2) Adoption of special accounting treatments for the preparation of quarterly consolidated financial statements

  Not applicable
- (3) Changes in accounting policies, changes in accounting estimates, and restatements
  Not applicable
- (4) Additional information

Consolidated business performance for the nine months ended September 30, 2017 (From January 1, 2017 through September 30, 2017)

Effective as of the beginning of the first quarter of the current fiscal year, the Company adopted the "Revised Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Implementation Guidance No. 26, issued on March 28, 2016).
